

Growing Wild ... and Greener Gardens!

Application Form for a Garden Consultation

Name:		Date
Phone number:	Email address:	How do you prefer we contact you?
Mailing Address:		
Address of Garden, or check here [] if the garden is at your mailing address.		
Note that Growing Wild Consultations are available in King and Snohomish Counties only.		

- What are your priorities/expectations for this garden visit?

- What are your specific concerns? (water usage, attracting more wildlife, increasing Pacific Northwest natives, dealing with slugs and other pests)

- Please briefly describe your garden. Think about its soil, climate, moisture, sun-shade, plants, birds and other animals.

Include a simple sketch map of your property to show us its buildings, sunny and shady areas, wet and dry spots, wildlife features—ponds, birdbaths, birdfeeders, etc.

Return your application, garden sketch, and a check made out to the Washington Native Plant Society to the address below for the amount of \$75 for WNPS members or \$100 for non-members. (Your donation includes your first year of membership in the Washington Native Plant Society). It may take some time for a Growing Wild Consultant to arrange to meet with you. If no consultation has occurred by 12-31-07, WNPS will gladly refund your donation.

The garden consultation consists of a 90-minute garden visit by Growing Wild consultants, materials including the Backyard Wildlife Sanctuary kit, a follow-up report, and a visit assessment for us, by you.

Return completed application form and garden sketch to:
Washington Native Plant Society, 6310 NE 74th Street, Ste. 215 E, Seattle WA 98115-6302
